## DR. E. G. GOWANS IN A TALK TO COUNTY TEACHERS

Today Lester H. Froerer of the county board of education issued \$5000 in checks to the school teachers of the rural districts who were in the city to attend the regular county school institute.

The teachers met in Judge James A. Howell's court room for institute work, which was taken up immediately after and an address on elementary education was given by Dr. E. G. Gowans, state superintendent of public instruction. In his talk, Dr. Gowans emphasized the idea that elementary education does nothing more than furnish the pupil with tools for learning. He was opposed to eighth grade examination, as it offered too great an inducement as a stopping place in school work on the part of the pupil. He said that he considered it very damaging to the student if he became imbued with the idea that the conclusion of eighth grade work finished his education and prepared him for life.

The fleet at or near Vera Cruz comprises six vessels: the battleships Delaware and Georgia, the armored cruiser Washington, the protected cruiser Tacoma, the gunboats Petrel and Sacramento. The cruiser Des Moines is doing patrol duty at Progresso harbor, where export disturbances have complicated the Mexican situation. Greatest care will be exercised not to force the navy to a showdown, such as precipitated the occupation of Vera Cruz by marines last summer.

## CITY BUYS LAND FOR EXTENSION OF ITS WATER SYSTEM

At an adjourned session this morning, the city board of commissioners purchased from the Utah Power & Light company a little more than eight acres of land for \$480, which will be used in the operation of the artesian water system. The land is situated directly west of, and adjacent to, the lands on which the flowing wells have been driven. It is said that it will well serve the purposes of the city as a right of way for reservoir and aqueduct from the wells to the pipe line which will extend to the Cold Water canyon connection.

In response to the petition of the Dees hospital, that delinquent sewer tax should not prevail against the institution, the board ordered that the delinquent tax notice be returned.

City Attorney Valentine Gideon reported that the special sewer tax warrant of \$112.56 held by W. J. Moran should be paid from the special fund, if there is money in that fund that can be applied, otherwise it must be paid out of the general fund. The treasurer was directed to report the condition of the special sewer fund.

The attorney states that this is a case where a sewer tax was remitted in 1912 by the old city council, the contractor still holding a warrant for the work. The council made no provision for reimbursing the fund and he can see no way to settle on the warrant at this time than to pay in from the general fund.

On motion of Commissioner T. S. Browning the application for a rooming house license by Mrs. W. F. Camp was denied.

The matter of reducing the width of the Riverdale road from 132 to 99 feet,

recommended by Commissioner Chris Flygare of the street department, was referred to the committee of the whole for further consideration.

On the recommendation of the city engineer, respecting corrections in a deed held by J. J. Barker, to certain lands on West Twelfth street, no action was taken.

Petition of property owners for sidewalk improvement on Pacific avenue, between Twenty-seventh and Twenty-eighth streets, and on Park avenue, granted and the engineer was instructed to prepare the necessary resolution of notice of intention.

Petition for watermain extension on the old canyon road leading north from the car line, at the east end of Glenwood park, was referred to the superintendent of waterworks.

The superintendent of waterworks was given a petition from property owners, asking for an extension of watermain from Five Points to the north city limits on Washington avenue.

The matter of giving the Ogden, Logan & Idaho Railway company an opportunity to bid on the transportation of material for the pipe line extension to the municipal artesian wells, was referred to the superintendent of public affairs and finance, Mayor A. G. Fell.
